Save money, manage propane needs with Auto-Fill Program

Discount available. Call to inquire.

CHS has a great way to save you money and help you better manage your propane needs this winter. If you sign up for our Propane Autofill Program, you will be eligible to receive a discount. To receive this discount, you must remain on autofill throughout the year. You cannot switch back and forth.

On Propane Autofill Program, we will place your tank on a route to be filled automatically when the level reaches decreases to 30% – 20% full. When your tank is filled, you will receive a mailed statement with the payment being due by the 20th of the following month.

To qualify for the Propane Auto-Fill Program, you must have a credit account with CHS. If you do not currently have a credit account with us, you can fill out our quick and easy credit application and receive an answer within just a few days.

If you have questions, please contact us at 406-755-7400 and ask for Elizabeth Wilson.
